Golf Report:

The following golf report was read to the Board of Park Commissioners by Commissioner William F. Humphrey.

San Francisco, Calif., May 29, 1924.

To the
Honorable Board of Park Commissioners of the
City and County of San Francisco,
San Francisco, California.

Gentlemen:

After carefully considering the present control of the Lincoln Park Golf Course and a plan for operating that course and the proposed Harding Memorial Park Golf Course, we have concluded that it is advisable that someone closely identified with the Commission have charge of the business and playing administration of these courses. If the positions of Secretary to the Park Commissioners and Manager of the Courses were consolidated, we believe that there would be an economic operation and an improvement in playing conditions, and therefore recommend this consolidation and that the salary of the Secretary be increased to $275.00 a month and in addition he be allowed $50.00 a month toward the upkeep and maintenance of his automobile, which will be used by him in the discharge of his work. It will be the duty pf the Manager to see that the courses are properly inspected and controlled and that the various employees discharge their duties impartially.

We have considered carefully the question of a golf professional for Lincoln Park and deem it advisable to have one professional who will have charge of both parks under the manager with such assistants at his own expense as the professional may desire, to give in-

structions and to maintain a proper caddy service. Of all the applicants who have been mentioned none in our judgment is as well qualified as Dave Shay. He is a competent golfer and one of the best instructors. We believe he will accept the position at a salary of $200.00 a month and the exclusive privilege of selling, renting, cleaning and storing golf clubs and of giving lessons on both courses, the salary to begin from the first day of June 1924. The sale of golf balls, we believe, should be reserved to the Commission. The Lincoln Park Golf Club will contribute $75.00 a month toward this salary, but the Board should determine whether or not it is policy to allow its professional to be employed by any one other than the Commission itself.

We recommend the following changes in the golf courses:

(1) Reduce by about two feet the hillock in front of the first tee;

(2) The establishment of three or four temporary greens that could be used to relieve the play on the regular greens;

(3) The erection of a screen back of the second green to protect the players from careless drives from the thirteenth tee;

(4) Change the third fairway and green so that the play on the fourth and fifth fairways will not be congested and all danger of injury will be eliminated;

(5) Change sand bank off the seventh green to clay. This will do away with considerable delay in the playing of this green and also relieve the congestion on the seventh tee;

(6) The establishment of practice driving and approach grounds and the building of a clock green.

The cost of all this work will be in the neighborhood of $20,000.00.

We have communicated with the different golf clubs in the West and find that the fees charged in San Francisco are the lowest. In Los Angeles the monthly fee is $15.00 and the daily fee $1.00. In Oakland it is $18.00 a year or $2.00 a month. The charge at San Francisco is $1.00 a month and 50¢ a day. We recommend that the rates be increased to $18.00 a year, $2.00 a month, 50¢ a day and 75¢ on Saturdays, Sundays and holidays, and that the new rates be effective July first, 1924.

It is worthy of note that 184,755 citizens annually use the Lincoln Park Golf Course.

Very respectfully,
Sgd. William F. Humphrey.

Unanimously adopted by the Board of Park Commissioners.

Increased rates contained therein to be effective June 1st, 1924.

Employment of Dave Shay as golf professional effective June 1st, 1924.

Unanimously approved by the Board of Park Commissioners.

Installation French Exhibit in California Palace of the Legion of Honor:

D. 1901, to bury or inter or cause to be interred or buried, the dead body of any person in any cemetery, graveyard or other place within the City and County of San Francisco, exclusive of those portions thereof which belong to the United States, or are within its exclusive jurisdiction; provided, however, that a committee of the Board of Supervisors of the City and County of San Francisco, appointed by the Mayor, and consisting of three members of said Board, shall be authorized and empowered, and they are hereby directed to permit the burial in any cemetery, graveyard or other place designated for that purpose by said committee within the City and County of San Francisco, not belonging to or within the exclusive jurisdiction of the United States, of the body of any person who, in the judgment of said committee, shall have rendered exceptional or unusual service to the City and County of San Francisco, or to the State of California, or the United States of America, or who, in the judgment of said committee, shall have so distinguished himself or herself in literary, artistic or scientific pursuits as to have merited burial of his or her remains in any public or private place within the City and County of San Francisco, not belonging to or within the exclusive jurisdiction of the United States; provided, further that, should said committee designate a place or burial which is by law placed within the exclusive management or control of the Park Commission of this City and County, then the consent of said Park Commission to such burial shall also be obtained."

Erection of Stable in Golden Gate Park:

The Board next discussed with Supervisor McGregor the erection of a stable to accommodate trotting and pacing horses in Golden Gate Park, near the old Stadium. President Fleishhacker then addressed the following letter to Hon. John A. McGregor:

"The Board of Park Commissioners have carefully considered your argument in favor of the erection and maintenance of a stable at Golden Gate Park near the old Park Stadium suitable to accommodate the horses racing at the stadium at certain seasons of the year and such other horses as are accommodated at the stable at 36th Avenue and Cabrillo Street, which is, in the judgment of the people living in the neighborhood in which it is located and of the members of the Health Committee of the Board of Supervisors of the City and County of San Francisco, a public nuisance. This stable, we understand, is as sanitary as any stable might be made and only the fact that the premises are used as a stable constitutes the nuisance.

"The Park Commissioners were most anxious to comply with your request and most reluctantly urge you to withdraw the same as in its judgment it may not be granted, except to the great damage of Golden Gate Park and only then by ignoring the conclusions on the same subject, reached at least twice within the last two years by the Park Commission.

"On February 13th, 1923, a resolution of the Board of Supervisors requesting that a stable be built adjacent to the present park stadium for the above mentioned purposes was presented to and considered by the Board of Park Commissioners. It was stated at an open meeting of the Board of Park Commissioners that the resolution was intended to transfer to Golden Gate Park the alleged nuisance created by the stable at 36th Avenue and Cabrillo Street. On April 5th, 1923, the Health Committee of the Board of Supervisors, in open meeting of the Board of Park Commissioners, urged them to grant the request contained in that resolution. After much discussion, the subject matter was referred to Superintendent John McLeran for consideration and report. Again, on the 19th day of April, 1923, Supervisor Richard J. Welch and a committee from the San Francisco Driving Club appeared before the Board of Park Commissioners and urged the Park Commission to acede to the joint request of the Board of Supervisors of the City and County of San Francisco and the San Francisco Driving Club. The President of the Board of Park Commissioners assured this Committee, as he had previously advised other committees, that the matter would be carefully considered as soon as a report was received from the Superintendent of Public Parks.

"Shortly thereafter, Superintendent John McLaren reported that the erection and maintenance in the vicinity of the park stadium in Golden Gate Park of a stable for the housing and accommodation of horses would be detrimental to the park development and would be as objectionable there as the stable at 36th Avenue and Cabrillo Street was objectionable to the people living in that neighborhood. Thereupon, a committee of three of the Park Commissioners was appointed to investigate the matter further and its findings were substantially the same as the conclusions of the Superintendent of Public Parks. Since these separate reports, both of which have been approved by the Board of Park Commissioners, there have been several unofficial investigations by individual commissioners with the same result.

"Under these circumstances, it seems impossible for the Board of Park Commissioners to recede from its decisions especially when to do so would be tantamount to an invitation to transfer to our beautiful Golden Gate Park an activity which the Health Committee of the Board of Supervisors declares is objectionable as a positive menace to public health.

"It would hardly be consistent with our duty to the public to take such action.

"We would not like our records to disclose that we had denied you, our former respected associate, any request, and we hope that you and your committee will, after further consideration, agree with the conclusions we have reached."

Yours very truly,
PARK COMMISSIONERS of the
CITY AND COUNTY OF SAN FRANCISCO
By Herbert Fleishhacker,
President."
